I'm advocating today with hundreds of other @AILANational members for #AILANDA25 to share solutions for bipartisan action on immigration. The American people want an immigration system that is orderly, fair, and meets today's needs. Here are the solutions Congress must act on:

- Expand work visas and reduce processing delays to strengthen our economy
- Protect undocumented individuals and creating legal pathways, including for Dreamers & TPS holders
- Enact smart policies to prioritize due process, community safety & efficiency, not inhumane raids or backlogs
- Ensure the immigration system is transparent, properly funded, and able to meet the needs of American families, businesses, and communities
