SUPPLEMENTARY INFORMATION: The Workforce Recruitment Program (WRP) is a recruitment program that connects students with disabilities to an opportunity for employment. Through participating colleges and universities, WRP creates a talent pool for Federal and interested private-sector employers nationwide to find college students and recent graduates with disabilities, including veterans, who are eager to demonstrate their abilities in the workplace through internships or permanent jobs. Candidates are not placed into jobs; they are simply applying to be part of a resume talent database of postsecondary students and recent graduates with disabilities that is made available to Federal employers directly and to the private sector through a contractor. Employers will then reach out to candidates directly if they are interested in interviewing or hiring them for a specific position. Candidates also have the opportunity to participate in program career development activities and receive communication about hiring fairs and other federal opportunities shared with the WRP. For additional substantive information about this ICR, see the related notice published in the **Federal Register** on February 9, 2026 (91 FR 5782).

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless the OMB approves it and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid OMB Control Number. See 5 CFR 1320.5(a) and 1320.6.

DOL seeks PRA authorization for this information collection for three (3) years. OMB authorization for an ICR cannot be for more than three (3) years without renewal. The DOL notes that information collection requirements submitted to the OMB for existing ICRs receive a month-to-month extension while they undergo review.

BILLING CODE 4510-FN-P

DEPARTMENT OF LABOR

Bureau of Labor Statistics

Agency Information Activities: Proposed Information Collection; BLS Generic Clearance for the Collection of Qualitative Feedback on Agency Service Delivery

AGENCY: Bureau of Labor Statistics, Department of Labor.

ACTION: Request for comment.

SUMMARY: The Department of Labor, as part of its continuing effort to reduce paperwork and respondent burden, conducts a pre-clearance consultation program to provide the general public and Federal agencies with an opportunity to comment on proposed and/or continuing collections of information in accordance with the Paperwork Reduction Act of 1995. This program helps to ensure that requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements on respondents can be properly assessed. The Bureau of Labor Statistics (BLS) is soliciting comments concerning the proposed collection of the "BLS Generic Clearance for the Collection of Qualitative Feedback on

Agency Service Delivery." A copy of the proposed information collection request can be obtained by contacting the individual listed below in the **ADDRESSES** section of this notice.

DATES: Written comments must be submitted to the office listed in the **Addresses** section of this notice on or before June 29, 2026.

ADDRESSES: Send comments to Nora Kincaid, BLS Clearance Officer, Division of Management Systems, Bureau of Labor Statistics, by email to BLS_PRA_Public@bls.gov.

FOR FURTHER INFORMATION CONTACT: Nora Kincaid, BLS Clearance Officer, at 202-691-7628 (this is not a toll-free number). (See **ADDRESSES** section.)

SUPPLEMENTARY INFORMATION: Office of Management and Budget clearance is being sought for the BLS Generic Clearance for the Collection of Qualitative Feedback on Agency Service Delivery. This information collection activity will be used to garner customer and stakeholder feedback in accordance with the commitment to improving service delivery. The feedback sought is information that provides useful insights on perceptions and opinions, but are not used as statistical surveys that yield quantitative results that can be generalized to the population of study. These collections will: provide insights into customer or stakeholder perceptions, experiences, and expectations; provide an early warning of issues with service; focus attention on areas where communication, training, or changes, in operations might improve delivery of products or services; provide ongoing, collaborative, and actionable communications between BLS and its customers and stakeholders.

These collections will also allow feedback to contribute directly to the improvement of program management. Feedback collected under this generic clearance will provide useful information, but it will not yield data that can be generalized to the overall population.

This type of generic clearance for feedback information will not be designed to yield reliably actionable results such as, for example, monitoring trends over time or documenting program performance. Those sorts of data usages require more rigorous designs that address: The target population to which generalizations will be made; the sampling frame; the sample design (including stratification and clustering); the precision requirements or power calculations that justify the proposed sample size; the expected response rate; methods for assessing potential nonresponse bias;
