UPDATE - New Requirement: E-Verify Account Validation

Release Date: July 16, 2026

E-Verify employer accounts are having technical issues affecting many users. The problem is linked to a new account validation feature, which has now been turned off to prevent more disruptions. Our team is working to fix the issue, but we do not know when it will be resolved. We will share updates as we learn more. There is no need to contact E-Verify support at this time, as we cannot offer further help until the system is restored.

Thank you for your patience and understanding.
