

# DIVS Driver License & Identification Card Verification Systems

# Who is DIVS?

A state led effort formed to:

- provide program management and governance of DIVS-developed or enhanced verification capabilities,
- recommend or facilitate improvements to existing verification systems.

Access and use of these information systems, will enable State driver license agencies to issue credentials that are more secure and will improve highway safety.

# Program Scope

## Five (5) Verification System Projects

- State to State Verification
- Birth Record Verification
- Immigration Status Verification
- U.S. Passport Verification
- Social Security Verification

# State Secure Credential Progress

## Legal Presence Requirement States
